

Meet the new principal!

I am Bev Enriquez. I am honored to have been appointed the new Principal/Administrative Mentor for Berean Academy. I have been involved in education for well over 20 years. I have served scholars as a K-8 teacher, special education teacher, special education coordinator, curriculum and federal programs director, and principal. I have also taught college preparatory courses for various universities, as well as the Structured English Immersion courses for the Arizona Department of Education. I am married and have two sons.

I am excited about the wonderful opportunities that I know I will encounter at Berean Academy! I look forward to a great school year in which we will develop new ways to serve our scholars and their families!
